

I take this opportunity to exercise my right of petition. The FCC is introducing a new broadcast service LPFM. The LPFM is going to affect the broadcast of stations such as KLOVE and I am disturbed by this. Please do not do it. KLOVE is a christian radio station that has a very large impact on my daily life. I look forward to it and encourage you to not pass this new Low Powered FM. God is more than deserving of High Power, for he is the High Power.
